CAREER OBJECTIVE

Motivated and detail-oriented B.Tech student specializing in Artificial Intelligence and Machine Learning, seeking an opportunity to apply strong programming, problem-solving, and software development skills to build innovative and scalable solutions while continuously learning and contributing to organizational success.

EDUCATION

B.Tech – Artificial Intelligence and Machine Learning Mohan Babu University, Tirupati	2023 – 2027 GPA: 9.44
Intermediate (M.P.C) Sri Prathibha Junior College, Ongole	2021 – 2023 CGPA: 9.74
Secondary Education (SSC) K.V.N and L High School, AP	2020 – 2021 CGPA: 10

PROJECTS

- **AI Code Review and Security Analysis**
Developed an AI-powered code review system using FastAPI for Python and Java code submission and syntax validation.
Built an OWASP-based secure coding knowledge base with RAG for security analysis and coding recommendations.
Created a responsive interface for code submission, validation, and security results using HTML, CSS, and JavaScript.
GitHub: AI Code Review and Security Analysis
- **StudyZone – LMS Portal**
Developed a full-stack Learning Management System (LMS) using Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript. Implemented secure JWT-based authentication with role-based access for students and teachers. Built features including course management, assignment submission, grading, file uploads, discussion forums, and real-time notifications. Designed a responsive interface and deployed the frontend on Vercel with GitHub for version control.
GitHub: StudyZone

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Backend Technologies:** Flask, REST APIs
- **Databases:** MySQL, SQL
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Tools:** Git, GitHub, VS Code, Postman, Google Colab
- **Core Subjects:** Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- AI Practitioner Certification – AWS
- Oracle Cloud Infrastructure Certified AI Foundations Associate – Oracle

INTERNSHIP

AI Intern - Infosys SpringBoard Jun 2026 – Aug 2026
Developed an AI-powered Code Review and Security Analysis system for Python and Java, integrating OWASP-based RAG, vulnerability detection, severity classification, automated remediation recommendations, and exportable PDF reports.

ACHIEVEMENTS & ACTIVITIES

- Awarded a Merit Certificate from Naukri Campus for securing a 96.85 percentile in YoungTrucks 2025.
- Participated in national-level hackathons, strengthening problem-solving, teamwork, and software development skills.
